Mission Month of October: We are once again celebrating the Mission Month of October. Mission Month gives us all the opportunity to reflect on our baptismal call to bring Christ to others, which is a privilege in itself. The gift we have been given, we are asked to give. Our gift to the world is the joy of the Gospel and our Irish missionaries continue to bring the Good News to people throughout the world. World Missions Ireland, the working title of the four Pontifical mission societies, organises the Mission Sunday collection in all Churches nationwide. Mission Sunday falls on the 23rd October. Our theme is 'Every Christian is a Missionary. We can all do our part in an open, joyful and generous way. For further information on WMI or to make a donation please visit www.wmi.ie

“Education policy must have a priority option for the poor” – Archbishop Diarmuid Martin
Speaking at the Annual Schools Mass in Clonliffe College, Dublin, on 27th of September, Archbishop Diarmuid Martin of Dublin, said that Catholic educational institutions, especially the most prestigious, must find ways to assist the disadvantaged. He said, “Most of the religious orders which have education as their mission sprung up from courageous and far-seeing founders and foundresses who were inspired to address the needs of the poor. Exclusivism should never be the dominant tone of any Catholic school.” Archbishop Martin said, “Failure to invest in fostering the educational opportunity of the disadvantaged from an early age is economical nonsense, which will end up in requiring greater investment when indeed it may be too late and less effective. Quality education is a fundamental right of all and a requirement of our respect for the dignity of the weakest in society.” Archbishop Martin said he was addressing his remarks in a special way to the Catholic education community. Carbon Monoxide Awareness Week 2016. Carbon Monoxide (also known as CO) is a colourless, odourless poisonous gas and is a common yet preventable cause of death from poisoning worldwide. Approximately half of the deaths from unintentional CO poisonings result from the inhalation of smoke from fires. Other significant causes are vehicle exhausts and deaths in industrial / commercial settings. The incomplete combustion of organic fossil fuels such as oil, gas or coal is a common environmental source of CO and is responsible for many cases of non-fatal unintentional CO poisoning. Regular inspection and maintenance of appliances, vents, flues and chimneys are the best ways to protect you and your family from the hidden danger of carbon monoxide. For added protection install an audible carbon monoxide alarm. Carbon Monoxide alarms are available from many hardware and DIY stores. For further information call: 1850 79 79 79. Lines open: 8am to 8pm Monday to Friday. Lines are open from 9am to 5.30pm on Saturday. For more information or visit www.carbonmonoxide.ie
