Carbury Parish Masses Cancelled

We wish to advise that the Government has suspended all public weekday and weekend Masses in the Diocese for the time being following health authority guidelines.

Fr Fitzpatrick or Fr Murphy will say Mass, which will be streamed live from Derrinturn Church, we would encourage all our parishioners to visit www.carburyparish.ie to access this service.

All Masses booked during this time, will be included in the above Masses in Derrinturn Church.

Preparation Mass: for First Communion and Confirmation Children will be on every Wednesday at 9.30am in Derrinturn Church, because we will not be able to have a preparation programme at this time. The Mass can be viewed on the Parish Webcam.

Taking steps to care for our common Home

Water: Only use your washing machine when it is reasonably full. *Using a washing machine to wash just a few articles is really environmentally expensive in water, heat and detergent.* Put a plug in the sink when you are washing your hands. *Washing your face, hands or teeth with the tap running is extremely wasteful of precious water.* Have a shower instead of a bath. *An average shower uses 40 – 60 litres of water and a bath anything between 80 -200 litres.* Always turn taps off fully, check regularly for drips or leaks and replace worn tap washers. *Just one drop of water per second wastes 1,200 litres per month.* If your tap water is safe to use, drink tap water instead of bottled water. *Bottled water, which is no healthier than tap water, is having devastating effect on the environment because of the huge resources required to extract it from the ground, package it and ship it.* In summer, keep a jug or bottle of water in the fridge. *This saves running the tap until the water runs cold if you want a cold drink of water.* If you have to run your hot water tap for a while before it becomes hot enough to use, save the water in a container and use for purposes around the house. *By doing this litres of precious water will be saved.* Avoid using a hose for washing your car. *Per average wash, a hose uses over 30 buckets of water whereas you can do a very good job manually with 3 – 5 buckets!* Think about using a displacement device in the toilet cistern to reduce the amount of water used per flush. *One third of all water used in the home is used for flushing the toilet. Each flush uses up to 9 litres of water. A simple way to reduce this amount is to place a 1-litre container filled with water inside the cistern.* Know how to turn off your water supply. *This is important if, for example, there is a burst pipe/boiler in your home. By turning off the water, you not only safeguard your home from serious damage.* Invest in a water butt to harvest rainwater and water your garden with a watering can. *A watering can uses about nine litres of water whereas a sprinkler uses up to 500 litres per hour.*

Prayer to St Brigid 1st February, 2021

Kandle.ie

*As you begin, name any prayer intention you have,
while including protection and healing
from COVID-19 and
the intentions of the people of our diocese*

Oh Brigid, Mary of the Gael,
may your protection never fail.
Spread your mantle over me,
where 'ere I am, where 'ere I be.
Cover me with God's joy and peace,
let my faith and hope never cease.
Shine your light where there is darkness,
strengthen me in any weakness.
Heal all within that may be ill,
give me the desire each day to do God's will.
'Till I rest, my journey o'er,
with God and you forever more.
St. Brigid, patron of Kildare and Leighlin,
pray for us.
